

## **Mgr. Tomáš Kopřiva**

Tomáš Kopřiva completed a master's degree in Teacher Education of Mathematics and Physics for Upper Secondary Schools in 2022 at the Faculty of Mathematics and Physics, Charles University in Prague (FMP CU). He is currently pursuing a doctoral degree in Physics Education and General Problems of Physics at FMP CU. He has presented his research on the relationship between students' interest in physics and classroom activities at three GIREP conferences and has also participated in numerous Czech conferences focused on innovative, student-centered, and engaging approaches to education. His professional focus is primarily oriented towards improving the quality of physics education and interest in physics. He has been teaching physics part-time at grammar schools for over five years and lectured in the Interactive Physics Laboratory for over six years. He also lectured physics show called Physics With All Senses for over three years.
